

Nouriel Roubini

World renowned economist, speaker, educator, advisor, and portfolio manager, with remarkable insight into the world at large. His extensive global travels and meetings with financial influencers around the world has him wise to the latest developments and provides a perspective and awareness like no other that he shares in his brilliant and extremely informative talks.

It is no wonder that he was Recognized by Time as one of the top 100 scientists and thinkers who affect our world today.

Dr. Roubini's views on global economic issues are widely sought and cited by the media, having recognized ahead of others the 2008 global financial crisis, the effects of which reverberated around the world lasting well into the next decade. He is a frequent commentator on various business news programs and has been the subject of extended profiles in many leading current-affairs publications including the *New York Times Magazine* & *The Financial Times*.

Reviews/Testimonials

- "I would like to express our sincerest thanks for your time and your exceptional talk yesterday. Many thanks for sharing your views on such critical and relevant topics."
- Your engaging way of communicating with the audience comprising our Senior Leadership made a significant impression on the participants, and we hope to welcome you back to another event in the future as well."
- "I wanted to thank Professor Roubini for speaking to our audience earlier this spring. It's been one of the most popular talks we've held in the past year. His talk really prompted further conversation in the area, and it is a real shame the Q&A session couldn't have been longer, we had so much more to talk about!"
- We, along with other colleagues in government, really value the insight that Professor Roubini provided us with."
